About El Nino Ventures

El Nino Ventures Inc. (ELN) has in the past years been a base metals exploration company with its focus being on the Murry Brook Project in the Bathurst region of New Brunswick, Canada. ELN signed an option to purchase agreement regarding the sale of its interest on this project (news release: October 13, 2016) with Puma Exploration (Puma) for \$3.1 million. A final payment of \$1.0 million is due June 30, 2020. In the event Puma does not satisfy the conditions of the sale agreement, then ELN shall retain its 32.1% interest in the Murry Brook Project as well as receiving the geological information, reports, metallurgical tests and the surface copper zone drill sampling which to date represents about \$2.4 million in exploration work completed on the Murray Brook Project since ELN entered into the original sale agreement with Puma. The Company continues to investigate new acquisitions for ELN, and plans to use the Prospector Generator model which reduces risk, share dilution and increases discovery potential.
